VILLA BORGHESE

The Villa Borghese is the newest addition to Fendi's Selleria line of bags and shoes, a line founded in 1925. Inspired by the work of Roman saddle makers, Selleria combines the craftsmanship of hand stitched leather with the elegant styling that Fendi is known for.

Embellished with a magnificent embossed stallion and a saddle buckle closure, the Villa Borghese is named after Rome's beautiful 17th century garden which was designed for horseback riding.

The Villa Borghese comes in two sizes and in saddle brown, pewter, black, pink, caper, gold, and white leather as well as a luscious black velvet. Gold leather, brown leather and black velvet slingbacks are also available.
